Please understand that we offer this as a service to our clients. We keep this information in the strictest confidence, and do not give this information out to anyone. By offering to take a credit card, we are charged monthly service charges to be able to do this, as well as a percentage of all total charges, 3%, which we cannot pass to the client if the services are performed by us. This service is an option, and is offered in order to keep our cash flow fluid, and to help our clients if they experience cash flow problems themselves and would like to use this service. We would rather absorb a 3% charge than have to hound a client about an unpaid bill! It is not required to have a credit card # on file if it makes a client uncomfortable to do so!
